Vol. XVII, No. 105

Mr. CARLISLE has been nominated by the Democratic caucus to succeed Senator Beck.

How would Fresno do as the place for holding the Sixth District Republican Congressional Convention?

BAR silver, which has been down again to 101, was quoted yesterday at 104. With the passage of a favorable bill, it will not be long before it is quoted at 120.

GOV. WATERMAN was given a public reception at San Bernardino yesterday and last evening, an account of which was wired to THE TIMES by Mr. Hervey Lindley, and is printed on one of the telegraphic pages.

COMMANDER McCALLA got off very easily, with his three years' suspension, retaining his rating for promotion. It will be hard to get respectable Americans to serve in our navy while there are McCallas afloat.

Some of the citizens of San Diego have struck the right trail in maintaining that it would be wiser to export the exposed 6000-9000 vehicles in developing their back country than in giving it to a railroad or steamship line. What we want in Southern California just now is not so much new railroads as more stuff for them to carry.

THE San Francisco postoffice-site commission has filed its report with the Treasury Department. The site recommended is the corner of Second and Howard streets—a site which will probably meet with much opposition from the mass of San Francisco's citizens. It is about equivalent to the corner of Aliso and Los Angeles streets in Los Angeles.

THE House had a division yesterday on the important question of lamp chimneys, and decided, by a vote of 163 to 107, that the present duty should be increased, but not until a rather acrimonious discussion had been indulged in. If Congress would pass a law providing that every lamp chimney should be guaranteed to stand at least twenty-four hours' gentle usage, the housewives of the entire country would rise up and bless the legislators. At present, lamp chimneys seem like politicians' promises—made only to be broken.

OUR French contemporary, *Le Gaulois*, announces that M. Pierre Nicolas, a wealthy French citizen of Los Angeles county, leaves today with his family for France. M. Nicolas has headed the subscription for the purchase of the Bartholdi fountain, of which we gave a sketch a short time ago. While in Paris he will inspect this work of art, and upon his return, in about three months, he promises to devote his attention to the work of completing the collection of the amount necessary to purchase and erect the fountain. M. Nicolas does not think it will take more than a month to obtain enough money to secure this chef d'oeuvre of the sculptor Bartholdi for Los Angeles. The proposed site for the fountain is the old Plaza—the center of the city—an appropriate location.

SATISFACTION will be numerously derived from the acquittal in the Superior Court (Judge Cheney) of Prof. W. F. Wheeler, formerly of Pomona, who was arraigned and tried on the absurd charge of an attempt to extort, by threats, money from C. D. Ambrose, a former business partner and late unsuccessful hunter after Federal office. The prosecuting witness fell down in his last campaign against a private individual as flatly as he did in his former raid on the Government treasury. Mr. Wheeler is a man of character and attainments—bold, uncompromising and outspoken—and knowing how to use the English language, he employed it with effect against the man at whose hands he had suffered, and whom he denounced as unfit to hold an office under the Republican Administration. Ambitious office-seekers who rise up on end and howl for place and pap must be prepared for those public and private criticisms upon their conduct and career which are the unquestioned prerogative of every citizen. The prosecution which was undoubtedly malicious on the part of the vulnerable prosecuting witness.

## FIRST STREET—ONE IN TWENTY.

At the meeting of the Board of Public Works yesterday, after full arguments had been heard on both sides of the question, it was finally unanimously decided to recommend the one in twenty grade for the opening of First street. The board recommended that the ordinance of intention to establish the grade from Lucas avenue to the west city limits on a one in twenty-five basis be rescinded, and that the City Engineer be instructed to report an ordinance of intention to establish a grade from Broadway to the city limits not steeper than one in twenty feet, said ordinance to provide for a tunnel from the east side of Grand avenue to the west side of Hope street, with bridges at Olive and Flower streets.

It is very gratifying to see that the board has unanimously arrived at so wise a decision—a decision which will give satisfaction to a great majority of those interested, and which, if carried out, will prove of vast benefit to the city, the western suburbs, and the country between the city and the ocean. It now remains for the Council to endorse the action of the Board of Public Works, and it is earnestly hoped by many people, representing large interests, that the Council will find ample reasons for such endorsement, and that the time will not long be delayed when work on this much-needed improvement will be commenced and pushed to a speedy conclusion.

It is scarcely necessary for us to add that the selfish interest of THE TIMES in this matter is as one in a thousand. We have consistently urged what we believed to be the best course for the interests of the citizens of Los Angeles and the farmers of the western plains.

## SUNDAY CLOSING OF SALOONS.

The new movement for Sunday closing of saloons is inaugurated in a calm address, published today, emanating from a new citizens' committee, who propose to confine the campaign to this one issue. The key-note of the address is found in the sentiment "Liquor and leisure never meet but for mischief." The reasons and arguments for Sunday closing are set forth clearly and strongly, yet conservatively, and will commend themselves to intelligent and fair-minded men, even of opposing views on the liquor question.

Bishop Mora and the priesthood of the Catholic Church in Los Angeles join in the movement, and have signed and issued a separate address, which is also published in this morning's TIMES. This address quotes strong utterances in favor of temperance from the pastoral letter of the Roman Catholic prelates of the United States, promulgated in December, 1884.

The movement is based on reason, justified by common sense, is in the interest of morals, law and order, and demands the support of good citizens, not excluding many men in the business which it is sought to regulate and control.

Sunday closing will not injure the city nor deprive a single citizen of any substantial right; but it will have the effect of promoting order, lessening crime, and making fragrant the reputation of the city in whose good name and fame we all take pride.

## "THE NEW SOUTH."

A vast amount of New England capital is being invested in different parts of the South. There is a providence in this, and political regeneration will come to that section through this means more swiftly than through any other. Manufacturers and various other southern industries have of late been on a very rapid increase. Ten years ago the South produced less than half a million tons of iron, but last year its product was 1,598,702 tons. Within the last decade the southern output of coal has increased threefold; as has also the number of its cotton spindles. And yet southern Democratic leaders prate as loudly as ever about the "blighting influences of a protective tariff." How true it is that "there are none so blind as those who will not see."

If California would set to work with determination to make the most of her resources, she would soon become relatively by far the wealthiest State in the Union. There is scarcely anything in the vegetable world but what she can grow, and there is no State in the Union whose soil yields such abundant returns. When the people of this State begin to show the industrial energy of the Yankee, we shall astonish the world with our products.

"One in twenty is good enough for me," seems now to be the prevailing sentiment among the hill residents on and adjacent to First street west. The good sense of the Council and His Honor the Mayor is appealed to by hundreds, in order that the reasonable demands and just expectations of a large and important section of the city may not be further disappointed.

UNCLE SAM's private soldiers are to be permitted to indulge in beer in the cantons, but they must not treat. If the same rule could be introduced in private life it would be well. Two-thirds of the evils of drink arise from this absurd and illogical American custom.

THE San Diego Union now wants the army headquarters of the department of Arizona down there. If there is anything else that San Diego wants it should not be bashful in asking for it.

THE Fresno Republicans will not choose delegates to the State convention before June 7th. This information comes to THE TIMES from T. C. Jenkins, editor of the Fresno Republican.

THE United States is a mere infant in years, a very child of today when compared with Japan, which has just celebrated the two thousand five hundred and fifty-fifth anniversary of the coronation of the first emperor of the country. But notwithstanding its youth, the United States has put off

its swaddling clothes, and has made grander advances in knowledge than has Japan in all her centuries of existence.

## AMONG THE POLITICIANS.

There are over one hundred and fifty Single Tax clubs in the United States. Judge J. F. Haynes, a Humboldt Democrat, is suggested as a successor to Congressman De Haven.

Editor Hanson of the Modesto Herald wants to be State Controller. He is a Republican.

The St. Louis Globe-Democrat (Rep.) remarks cautiously that "Secretary Rusk may not be a great statesman."

"The sure and swift way to death for the party in power, now or hereafter, would be to restore the spoils system," says the Chicago Inter-Com (Rep.).

The Young Men's Democratic League of San Francisco has resolved to advocate the Australian ballot reform system.

The Portland Oregonian thinks the Republican ticket will win, but says that Gov. Penneyer, Democrat, will run ahead of his ticket.

The Sacramento Bee suspects that Huntington is backing the movement to send Stephen M. White to the United States Senate to displace Stanford.

The New York Legislature has adopted a bill giving the Sheriff of New York a salary of \$12,000 with twelve salaried deputies.

The Atchison Champion, a leading Republican paper in Kansas, greets the Ways and Means Bill thus: "It is about time that wealthy eastern manufacturers were left to pad their own pockets at their own expense, and not at the cost of western farmers."

## The Sabbath.

Oh, how fair and so bright seen today  
Than other days as ye above us bend,  
And sweeter blow the breezes which do lend  
Such comfort to us on their winged way.

Ye are as fair as when 'O Eden's bloom  
The sun stole up the amber heights of dawn,  
And God's own voice spoke through the golden room,  
And blessed the day—to man His richest boon.

O day of rest, thy hallowed hours we love!  
Serenely breathing, Labor folds her hands,  
And tyrant Toil, with lash no longer stings;  
Peace broods above us like a white-winged dove.

O day of rest! O day that leads us home!  
E'en yet lingers in your blessed hours,  
And Hope unfolds a fresh and fragrant flower,  
Heaven nearer draws and angels whisper "Come!"

Earth's cares and turmoil sink from us away,  
The soul bathes in vision and it sees  
Life broadening into wide eternities  
Of sacred joy and everlasting day.

## PUZZLING THE COURT.

A Chinaman Asks Admission to the Bar.

And the California Supreme Justices Are in a Quandary.

Two Sites to Be Recommended for San Francisco's Postoffice.

An Alaskan Volcano Belching Forth Flames and Ashes—Forecasters in Session at Oakland—Other Coast News.

By Telegraph to The Times.

SAN FRANCISCO, May 16.—[By the Associated Press.] This morning Attorney Chickering, in the Supreme Court, made a motion that Hong Yen Chang be admitted to practice. The matter was taken under advisement. Hong Yen Chang is a Christianized Chinaman, who came to this country several years ago. He entered Harvard College, and afterward attended lectures at the Albany (N. Y.) Law School, from which institution he was graduated with honors. He was naturalized by a New York court some time before his graduation, and was duly authorized by the New York Supreme Court to practice in all courts of that State.

The Justices are in a quandary over the situation. The point involved is whether Chang's citizenship papers are legal, even if they were issued before the law forbidding the naturalization of Chinese was passed. The laws of the State distinctly provide that no one not a citizen can practice in the courts.

Where "Frisco's" New Postoffice May Be Located.

WASHINGTON, May 16.—[By the Associated Press.] N. K. Masten, president of the San Francisco postoffice site commission, states that he will file the report of the commission today. "I intended to have filed the report yesterday," he said, "but I arrived at the Treasury Department after 2 o'clock in the afternoon, and could not secure admission. I felt it my duty to allow Senators Stanford and Hearst and Representative Morrow to know its contents before placing it in Secretary Windom's hands, and I have done so."

"What sites do you recommend?"

"The lot on Howard and Second, more popularly known as the Church of the Advent property, is our first choice."

"At what price is it offered?"

"Gentlemen who have bonded it offer it to us at \$750,000."

"What is the next choice?"

"A lot on Seventh and Mission streets, which is offered at \$700,000. The two lots are really the only ones that are recommended. There are four others, but none suitable. The Howland lot is a splendid piece of property, but it should be selected. It is a lot of 10 acres, and is situated on a hillside. It is either that or the Seventh and Mission street place, is not acceptable, I really don't see what can be done."

AN ALASKAN VOLCANO.

Spouting Forth Flames and Showers of Ashes.

SAN FRANCISCO, May 16.—[By the Associated Press.] News has reached here by letter from Port Blinnik, Ounalska, that Bogolof, the Alaskan volcano, that blazed and smoked for a time about seven years ago, is again in eruption. On February 17th and 22d there were signs of great activity, smoke and flame pouring from the crater, and rising to a great height. The sky for a week was clouded with ashes, which fell in liberal showers in the town of Ihtink, forty-four miles away. To those who saw the eruption it seemed that the pillars of fire and smoke were fully fifteen miles high.

A Murderous Barkeeper.

SAN FRANCISCO, May 16.—William Graham, a bartender, was locked up in the City Prison today to answer a charge of assault to murder. His landlady had told him that she would have to discharge him unless he conducted himself better in the future. Graham at once charged that John Graham, a lodger, had been telling her false stories about him, and when the men met, Fever demanded an explanation. Graham then drew a knife and slashed Fever half a dozen times across the face, neck and breast, cutting him seriously.

Not Wrecked on the Rail.

BUTTE (Mont.), May 16.—The report that Nat Goodwin's company was wrecked west of here yesterday afternoon was incorrect. Miss May Duffee, of the company, died at Missoula on Wednesday. The company remained there to look after the shipment of the body east. Its failure to arrive here for last night's performance caused the rumor.

## ARNOLD'S DEFENSE.

THE COLUSA EX-SHERIFF TELLS HIS STORY.

Circulars Derogatory to the Defendant's Wife Circulated by Garne—A Newspaper Man Gives Testimony.

By Telegraph to The Times.

SAN FRANCISCO, May 16.—[By the Associated Press.] D. R. Arnold took the stand in his own behalf today in the trial for killing Garne. He specified the times and places at which derogatory circulars about his wife were received. The circulars were introduced in evidence and read, and the envelopes bearing addresses of various parties in Colusa who received the circular were offered in evidence by the counsel, who stated his object was to show that the handwriting was that of Garne.

Court refused to allow the envelopes to be produced until the persons receiving them had been called as witnesses. Arnold, however, identified a number of them as having been handed him by prominent Colusa people.

This afternoon the defendant was taken from the stand while, and J. M. Ward, formerly city editor of the Examiner, testified that last fall Garne gave him a circular reflecting on Arnold's family, and asked him to mail it to Arnold and write a letter stating that the circular had come to the Examiner through the mails, and that Garne had told him its contents were untrue, and had advised the Examiner to have nothing to do with it. Witness said he did as Garne requested. Ward further testified that Garne afterward told him the matter would make an interesting story, and asked him to find a reporter to write it up.

Reporter to Garne, but the reporter said he did not care to undertake the task. Witness subsequently saw the story in manuscript in Garne's handwriting. He directed him to the Post and Garne took it to that paper where it was published next day. The article recalled the matters mentioned in the circulars and spoke of Arnold's efforts to hush the affair up.

The defendant was called again to the stand and detailed the conversation he had with Garne and several newspaper men about the circulars. He also described the condition of mind in which the circulars caused him to be. In three months he did not sleep soundly more than an hour at a time. His health became impaired, in his anxiety to discover the author of the circulars.

The court adjourned until Monday.

By Telegraph to The Times.

BALTIMORE, May 16.—[By the Associated Press.] Immigration was the principal subject of discussion in the Conference of Charities and Corrections today. President Van Antwerp of the New York State Board of Charities read a paper on the subject. He commended the action of the treasury in placing the execution of the law in New York in the hands of Federal officers and advised like action at other ports. The paper speaks of the growing number of immigrants from the south and interior of Europe, where the languages are almost beyond our ability to acquire, who have no inclination to acquire ours, and whose vague conceptions of citizenship are not in keeping with the American standard. If the incoming of these hordes of ignorant and undesirable classes is not checked enough ignorance in time may be imported to overwhelm the stability of our Government itself.

A paper by Mr. Wright of Boston set forth that while the population of Massachusetts in the last twenty-five years has increased but 60 per cent, and the wealth but 80 per cent, the expense for pauper support has increased 250 per cent. This great increase of pauper expenditure is due to the wholesale introduction of aliens into the United States. The annual commitment of insane of foreign birth is in the ratio of three to one of native birth.

The paper is served regularly by carrier, at an early hour every morning, to the residences and business places of citizens, at the same price charged in Los Angeles.

### NOTE AND COMMENT.

The time is approaching when you'll need your lawn mower and more as the season advances.

If you are a Mason, take in the picnic at Devil's Gate; if a native of Pennsylvania, spend the day at Lincoln Park.

SUPERINTENDENT OF STREETS Brown will have something to say to the Council today on the matter of sprinkling our streets at night.

The distinguished party of litterateurs here yesterday went away well pleased with what they had seen. It couldn't be otherwise.

SINCE the trees have spread their leaves the electric lights show more dark spots on our streets than would the old-style gas lamps.

THE mirage business is being run into the ground. THE TIMES no sooner tells of one of these phenomena than half a dozen more are heard of right here in our midst, although, curiously enough, no one ever said a word about them. If this sort of thing keeps up no property will be saleable unless a mirage is in plain sight.

A LITTLE girl died in New York the other day from the effects of rope-jumping. Nearly every season similar fatal results are reported. The sport is indulged in here to some extent. Parents and teachers should tell the children of the danger of this excessive exercise, as the majority of victims rush to death through sheer ignorance of the ordinary rules of health.

THE Union Pacific's abandonment of the line through Pioche, as originally surveyed, and the adoption of the Clover Valley route, can be accepted as a sure indication that the road will come direct to Southern California. It is of vital importance to Pasadena to have the road run through the Arroyo Seco Pass, and no efforts should be spared to effect such a result.

SOME of our girls who have hopes of going to Vassar had better see to it that the following lines, clipped from Vassar miscellany, do not come before their parents' notice: "The evening for her bath of dew is partially undressed; the moon looked a bob-tailed fish in sea."

A slight shock of earthquake, lasting about ten seconds, was felt here shortly before 4 o'clock yesterday morning.

Sanborn, Oakland; Miss Sanborn, Mrs. Hudson, John Pitts Sanborn, O. McGarr, T. B. McDonald, Miss Kibbee, Miss Howard, Hugh Sanborn and Mrs. H. R. Warner, who organized the party.

Among Thursday's arrivals were Charles Dudley Warner and wife, Hartford, Ct.; Franklin Harper of Harper Bros., New York; L. L. Hubbard, San Bernardino; D. Freeman, William Howland, Inglewood; H. A. Unruh, Arcadia.

The house is gradually filling up with summer guests, who find it altogether comfortable, and several degrees cooler than at Los Angeles.

### A Canyon Camp.

Prof. E. E. Whitted and George Coe of the University, with Charles Lantz of Los Angeles, arrived on the noon train yesterday well loaded with bags and lines. They were met by a conveyance, and proceeded in company with Messrs. Ward B. Rowland, Harry W. Rhodes and Howard J. ## ABOUT THE CITY.

### More Encouraged Real-estate Men.

#### NEWS OF THE UNION PACIFIC.

Mirages Becoming Numerous—Distinguished Visitors—The Masonic Picnic—Other Localities of Interest.

The following real-estate men were met on the street yesterday and expressed themselves as follows on the local situation:

A member of the firm of O'Neil Bros.: The situation is just this. Property is cheap and people are buying. Good lots are selling at from \$200 to \$300, and excellent properties at about what they could be mortgaged for. People have been waiting here all winter for bargains. Not that the bargains are here; they are being bought up at a lively rate. We have done more business during the past two weeks than during the previous two months. That indicates pretty plainly that business is looking up.

W. R. Staats: The real-estate business is moving in the right direction. There are more people in town investing money in property in this section than is generally supposed. I believe the real-estate line than any town in the country, and it will not be long before capitalists discover it. Property is exceptionally low. The buying has commenced auspiciously and by next fall I predict that the town will be in a lively and prosperous condition.

G. E. Frosser: It is a mistake to talk about the present rise as a boom. It is people get that idea into their heads things will suffer a relapse. The business of the past two weeks has been exceptionally good. Money is becoming plentiful. There is less demand for it, consequently it is impossible to get a high rate of interest on loans. As a result, people with money to invest are putting it into real estate, which is now obtainable at very low figures. This state of things will not continue long before a rise in the value of realty will be effected. The present condition of affairs augurs well for the town's prosperity.

#### MERRY MASONS.

A Big Picnic Today at Devil's Gate—Rest and Recreation.

A big crowd of Masons will picnic today at Devil's Gate. The picnic will be one of the good, old-fashioned sort, where everybody comes with a basket well stocked with provisions and a mind free from care and bent only on having a free and easy time.

C. J. Morrison and other members of the committee on arrangements were hard at work yesterday getting the picturesque grounds in readiness. It is expected that five hundred people at least will be present. Besides the local lodge there will be representatives present from four lodges in Los Angeles; also from lodges in Alhambra, Long Beach, Santa Monica and Monrovia. Ample accommodations, in the way of tables, etc., will be provided for all.

Lunch will be partaken of at 12:30 o'clock. Following this, brief addresses will be delivered by Rev. E. L. Conger, C. A. Gardner and Mrs. M. J. Parker of Los Angeles.

The Painter line will run cars to the grounds every hour from the junction of Raymond avenue and Colorado street. Returning, leave the grounds fifteen minutes before the hour. The morning trains from Los Angeles on the Cross road will run to the grounds, returning in the afternoon in time to leave for Los Angeles on schedule time.

#### MYRIADS OF MIRAGES.

The Times' Article Starts the Ball Rolling—But One Genuine.

The story of the local mirage as told in THE TIMES yesterday, excited considerable interest in town and everybody who did not yesterday visit the spot from which the curious delusion can be witnessed, has expressed an intention of doing so at the earliest opportunity.

Strange to relate, the story elicited assertions that mirages can be seen in other sections of town. A gentleman who lives on East Colorado street says that looking westward on that thoroughfare from the vicinity of Madison avenue a mirage is visible at certain hours of the day about where Worcester avenue runs into Colorado street. No one else, however, could be found who has ever seen the phenomenon in the locality indicated. Another man says that you can see a mirage almost any time on South Fair Oaks avenue if you only know how to look for it.

But careful investigation leads to the assertion that the only bona fide mirage in town, always visible under certain conditions, is that described in yesterday's issue of THE TIMES.

#### DISTINGUISHED VISITORS.

Charles Dudley Warner and Party in Pasadena.

Mr. Charles Dudley Warner and party arrived in Pasadena Thursday night in Mr. Warner's private car, after a day spent at Baldwin's ranch and the Hotel San Gabriel.

Yesterday morning they were driven to Sierra Madre Villa and about Pasadena, and shortly after noon were entertained at lunch by W. U. Masters at his residence on Orange Grove avenue.

The distinguished visitors left on the 1:32 train for Santa Ana. They expressed themselves as most favorably impressed with Pasadena and vicinity. Mr. Harper took a number of photographs of objects of prominent interest. In the party were Mr. and Mrs. Warner, Mrs. Cabell and Miss Price of Hartford, Ct.; Franklin Harper of New York; Dan Freeman and his daughter, Mrs. Howland of Los Angeles.

#### Very Close Together.

The report of a local contemporary, as taken from the report of a Los Angeles contemporary, concerning the changes that are to go into effect tomorrow on the Santa Fé may be as right, and again it may be false.

As the local agent knew nothing about the new schedule when a TIMES reporter met him yesterday evening, the report, as published, could not be disproved or substantiated here. We are willing, however, to go blind in denying the statement that two trains, respectively for Duarte and San Bernardino, will leave Los Angeles Sunday evenings ten minutes apart, or at 6:30 and 6:40 o'clock, as our contemporaries have it.

#### PATRIOTIC MUSIC.

An Enjoyable Concert at the Universalist Church.

An audience, large in numbers and representative in its make-up, listened to the war-song concert yesterday evening in the Universalist Church auditorium.

The vocalists consisted of the members of the Harmonia and the Polymnia quartettes as soloists, and a chorus of forty voices, under the leadership of Prof. O. W. Kyle. The programme comprised a variety and entertaining list of patriotic songs, which were rendered in a manner that displayed to good advantage the talents of the soloists and indicated careful training on the part of the chorus. In the second part of the programme the stage represented a camp scene at night. The setting was realistic and the military costumes of the performers heightened the effect. Between the first and second parts Capt. Lawrence Buckley recited a patriotic selection which elicited a vigorous encore. The proceeds will be donated to the organ fund of the church.

The following was the programme as rendered:

PART I.  
"Keller's American Hymn"—Full chorus.  
"Just Before the Battle"—Harmonia Quartette; solo by Miss Peck.  
"Vacant Chair"—Miss Dexter and full chorus.  
"Red, White and Blue"—Polymnia Quartette.  
"Tramp, Tramp, Tramp, On, On, On"—Messrs. Howe, Frost, Kendall, Thayer, Wood, Ely and full chorus.  
"Star-spangled Banner"—Harmonia Quartette; solo by Mr. Kyle.  
"When Johnny Comes Marching Home"—Manlove and full chorus.  
"Columbia's Guardian Angels"—Mrs. E. T. Howe, with Polymnia Quartette, Harmonia Quartette and full chorus.

#### PART II.

"Tenting Tonight"—Messrs. Whit and Crandall and male chorus.  
"The Wounded Soldier"—Mr. Thayer and chorus.  
"Old Boys at Home"—Messrs. Peck and Stoutenburgh and full chorus.  
"Dixie"—Messrs. Wood and Howe, and full chorus.  
"Marcher Song, 'Raw Recruit'"—M. E. Wood.

"Old Shady"—Male quartette, Messrs. Thayer, Wood, Howe and Kyle.  
Character song, "Grated into the Army"—Miss Stoutenburgh and full chorus.  
"When Johnny Comes Marching Home"—Fred Roche, Clayton Raymond, Arthur Wilson, Ralph Corcoran, Harry Kutzman, Ralph Arnold, Don McElroy and Ralph Corcoran.  
"Kingdom Come"—E. T. Howe.  
"Glory, Hallelujah"—Everybody and John Brown.

#### COMING SURE.

Later News of Interest Concerning the Union Pacific.

A representative citizen of town, well versed in railroad affairs generally, told the TIMES reporter yesterday that late developments point more strongly than ever to the rapid completion of the Union Pacific's proposed trunk line to Southern California.

It is now definitely known that the road will not run to Pioche, Nev., the route adopted during some thirty miles east of that place, passing through Clover Valley, and thence following a southwesterly course, in all probability direct to Barstow.

The abandonment of the route through Pioche, as originally contemplated, is a move favorable to Southern California. Had the line been run through that place, a serious course would necessarily have been followed to reach this section of the State, and the indications would have been less favorable for a southern terminus.

What route will be followed from Barstow to Los Angeles remains to be seen. It is to be hoped that the advantages of the Arroyo Seco Pass will be strongly urged.

#### WHERE TO VOTE.

The following voting places and officers have been designated by the supervisors for the election June 7th, on the proposition to issue \$300,000 in courthouse bonds:

#### A MILE ABOVE THE SEA.

Teachers from Here and Elsewhere Ascend Wilson's Peak.

A party made up of the following gentlemen left yesterday afternoon for Wilson's Peak: School Superintendent Monroe and Principals A. L. Hamilton and C. W. Hodson of Pasadena; Prof. Ira More, Melville Dozier, Los Angeles; J. N. Pemberton, Downey; J. N. Hilt, Boston; C. E. Jones, Alhambra; A. G. Van Gorder, Garvanza; Philip Eden, Glendora, and several others.

Last night was spent at the Sierra Madre Hotel, and a start up the trail was made at an early hour this morning. Some of the party will return to Pasadena tonight, and the others will remain on the summit until tomorrow.

#### The Czar's Memorial.

Mrs. Mary Cass Lord of South Pasadena is interesting herself in the interest of the memorial which is to be sent to the Czar of Russia, asking that he look into and seek to ameliorate the condition of exiles in Siberia. The movement was inaugurated recently in the church of Rev. McVickar in Philadelphia. It is intended to secure one million signatures to the United States.

States. The petition is couched in moderate language, and has been signed by a number of people here.

Memorial-day Sermons.

It has been incorrectly stated that the Memorial-day committee has forwarded requests to the ministers of town asking them to preach sermons commemorative of the occasion, on Sunday, May 25th. No formal notices have been issued, but the committee earnestly desires that such sermons be preached on that day, thus adhering to custom which is generally observed throughout the Nation.

Government bonds, steady.

New York, May 16.—The stock market presented about the same amount of business today as yesterday, but the reactionary temper was replaced by a more confident feeling, notwithstanding the fact that professionals and traders were still working for a further reaction, and a portion of the list was strong, while another portion was decidedly weak and the course of prices was subjected to sudden and sharp changes throughout. Union Pacific was the feature in early dealings, and it advanced nearly 1 1/2 per cent. The improvement being accompanied by rumors of new developments which will affect both Union and Central Pacific, and the general opinion was that a new issue of bonds to take the place of the Government loan at a lower rate of interest would be the scheme. Oregon Transcontinental continued its upward movement. In the last hour some improvement was made, and the market closed active and firm and generally at small fractional gains over last night's figures. Union Pacific up 1 1/2, Oregon Transcontinental 1 1/2, while Delaware and Hudson are 1 1/2 lower.

## SUPERVISORS.

A Little Breeze Over the Tax Collector Matter.

The Board of Supervisors met yesterday with all the members present, and held an all-day session.

Reports were received from J. F. Durham, road overseer, and Aaron Smith, special agent, in regard to the notification of Chinese gangs at work at Lompoc, about the poll-tax. The report was that very little satisfaction was obtained from the 1100 Chinamen at work, they claiming to live at San Francisco.

Supervisor Davis was appointed a committee, with power to act, in the matter of extending the truss-works of the bridge 100 feet on the west side.

The matter of a wharf franchise for William Banning at Avila was taken under consideration by the board.

At this stage of the proceedings W. R. Blackman's report on County Tax Collector Platt's statement came up. The statement shows the figures to be the same as those in his first report with the exception that he had seen receipts and vouchers for about two thousand dollars, which reduced the amount to about five hundred and seventy dollars. Mr. Platt and his attorney appeared before the board and the lawyer came near causing a scene. He made several statements to the board and was checked by one of the members who wanted to know who was on trial. The supervisor who interrupted Mr. Smith stated that no one had been accused of stealing and he thought the board could get along without an attorney. Here Mr. Platt jumped to his feet and stated that he had been accused of stealing.

Mr. Smith again got to his feet and stated that Mr. Blackman's assistant, George Monroe, had made his boasts that if he could get to Bob Platt's books he would "do him up." This created quite a little excitement, and Monroe denied that he had ever made such a statement. The attorney and Mr. Platt claimed that Monroe had made such a statement to Mr. Matlock, and that gentleman, who happened to be present, was called and sworn as a witness. On the stand he stated that Monroe never told him anything of the kind. He asked

Monroe if there was any truth in reports in the newspapers, and Monroe replied that the articles were true.

After referring Mr. Blackman's last report to Platt for verification, the board took an adjournment, as they were anxious to go to Garvanza.

During the regular session a petition was presented for the extension of Figueroa street, and Messrs. Stafford, W. H. Toler and William Dryden were appointed reviewers.

Cabins have been reserved for them on the steamer La Champagne, sailing from New York to Havre on the 24th inst. Fourteen French people of Los Angeles left last week, and will sail today by the same line, and several more will start next week. Most of them took round trip tickets, and will return in three or four months.

An Episode of New High Street.

During a social call on New High Street last evening, William Lank and a woman became engaged in a quarrel. As she had the greatest vocabulary powers, he undertook to check her flow of language by choking her and striking her in the mouth. Detective Bosquel was attracted to the house by the noise, and arrested Lank, charging him with battery.

A Healthy Sentence.

The jury in the case of Jeanette Peyton, tried in Justice Austin's court yesterday on a charge of petit larceny (shop lifting), returned a verdict of guilty. The woman was sentenced to \$150 fine or one hundred and fifty days in jail.

A Pioneer's Experience With Hood's Sarsaparilla.

"I am a pioneer in this country, having been here 30 years. Your years ago my little son Elly became blood-poisoned by impure virus in vaccination. His arm swelled terribly, causing great agony; physicians said the arm must be amputated, and even then his recovery would be doubtful. One day I read about a blood purifier, new to me, and was surprised to learn that it was prepared by C. I. Hood, with whom I used to go to school in Chelsea, Vt. I decided to have my boy try Hood's Sarsaparilla, and was much gratified when it seemed to help him. He continued to grow better as we gave him the Sarsaparilla, and having used 6 bottles is now entirely cured. As Hood's Sarsaparilla has accomplished such wonderful results, I recommend it all I possibly can." JEROME M. SLEEPER, Upper Lake, Lake Co., Cal.

The City Treasurer of Lowell, Mass., says: "The above is from my brother, whose signature I recognized. I am also glad to testify to the excellence of Hood's Sarsaparilla, and to say that C. I. Hood & Co. are considered one of the most reliable firms in New England." VAN B. SLEEPER, City Treasurer, Lowell, Mass.
